

Kodiak Connected Applications

Kodiak PTT Presence Manager – Real-time Availability

Kodiak PTT Presence Manager combines highly-reliable, real-time mobile presence updates with the most comprehensive PTT solution available in the market today. The Kodiak PTT Presence Manager enables Kodiak PTT subscribers to immediately display and instantly update a variety of mobile presence states to other Kodiak PTT subscribers. Each permission-based contact can instantly update and display their presence status to both individuals and groups of Kodiak PTT subscribers.

FEATURE OVERVIEW

- Upon changing the presence status, user handsets instantly transmit the updated mobile presence status to approved contacts.
- Users control their presence status and know which contacts see their availability to receive PTT calls.
- Kodiak PTT Presence Manager is permission-based, to ensure that each user has agreed to their presence status being published between specific PTT contacts and groups.
- PTT users can set-up a series of “buddy alerts” so that they receive a special notification when a contact or group member is online or offline.

THE KODIAK CONNECTED DIFFERENCE

Time-Saving – PTT Presence Manager indicates whether users are available for instant calls, which can be set-up in as little as 2-3 seconds

Efficient – The Kodiak RTX platform instantly recognizes changes to a user’s presence status and updates the operator network in real-time

Flexible – Multiple presence states allow users to determine how and when they want to be available for PTT calls

Convenient – Users can easily change their presence status directly from their handset

Kodiak PTT Presence Manager Status Icons

Available (Automatic upon logon)
Subscriber is logged on, and ready and willing to communicate.

Offline (Automatic upon logoff)
Subscriber is logged off.

Silent Mode (Automatic upon ringer being turned off)
Subscriber turns off the call ringer on the phone.
